Dana Unveils Comprehensive List of Double Joint Knuckles

To make its Spicer® Double Joint Knuckles more accessible, Dana has compiled a comprehensive list of all its aftermarket Double Joint Knuckles offerings and part numbers for 587, COMPACT and WING Series. This new list gives customers a one-stop database to easily identify the makes and models that Dana covers with its market-leading joints.

Dana's Spicer® Double Joint Knuckles have been known to be the best on the market because of their high-performance qualities. To make repair and overhaul of the Spicer® Double Joint Knuckles easier, Dana offers Repair Kits that contains everything necessary to repair them, including the company's sought-after Spicer® Ultra-Premium Grease, which isn't typically available to the market.

"Our customers are the core of our business and we've made it a point to make doing business with Dana easier than ever," said Leonardo Tummillio, driveshaft product manager, Dana Incorporated Aftermarket Group. "By releasing our comprehensive list of Double Joint Knuckles part numbers and offering the dedicated repair kits, we're ensuring our customers have what they need at their fingertips."

To place an order or learn more about the availability of Dana's center double joints, visit DanaAftermarket.com or the Spicer Catalog.
