## Visit us at Automechanika South Africa - Stand OD22 in the Outdoor Area

This year Dana will do it a little differently and have an outdoor stand which will display its comprehensive portfolio of Victor Reinz® sealing products and Spicer® drivetrain parts at Automechanika Johannesburg, South Africa.

Automechanika is the largest international trade show in the region for the automotive aftermarket, which takes place from September 19 – 21, 2019.

The highlight of this year's show will most certainly be the newly built Spicer Jeep fitted with the Ultimate Dana 60™ crate axle which will be a major attraction for many attending this year.

The new range of Victor Reinz gaskets for North American engine applications significantly expands coverage and seamlessly integrates into the current Victor Reinz product offerings of more than twenty-five thousand-part numbers.

Beyond displaying its expanded product line, Dana will showcase an array of Spicer products, including driveshafts, crate axles, and off highway products. Spicer will have some interesting new products on display like u-joints for the Mercedes-Benz Actros and heavy-duty driveshafts for Volvo and MAN truck and bus applications. Our unique offering of genuine Dana Spicer Jeep parts will also be on display.
